

Southeast IFT
Food Industry Expo

February 7, 2017
Cobb Galleria Center
Atlanta, GA

food expo 2017

Thanks to our
2017 Reception Sponsors

Bell Flavors & Fragrances

DuPont Nutrition & Health

Jungbunzlauer, Inc.

Southeastern Food Ingredients Inc.

Stroup Ingredient Resources, Inc.

Weber Flavors

Thank you for joining us
for the 2017
Southeastern IFT Food
Industry Expo and for
your continued support of
this great Section! To
our new and returning
exhibitors, we will
continue to work in
making this event worth
your investment.

Show at a Glance

Seminar Sessions Room 105	11:30AM - 2:30PM
Supplier Exhibits (Ballroom C)	2:30PM - 6PM
Casual Reception - Cash Bar Jocks and Jills Sports Grill Ground Level, Cobb Galleria	6:15PM - 8:15PM

The SEIFT Food Industry Expo is produced by...

Seminar Sessions

Room 105

1:30PM - 2:30PM: "ReThinking Innovation"

Nancy Quan
Chief Technical Officer, Coca-Cola North America and
Vice President of the Coca-Cola Company

Nancy will be talking about the dramatically changed approach to innovation at KKO. One approach is to leverage technical resources at their international R&D centers and look for opportunities to lift and shift successful products from one market to another. Longer term, they have employed strategic planning to identify technical platforms to meet anticipated future consumer needs and ultimately products at KKO. Part of this approach involves building strategic relationships with universities to explore fundamental or technical breakthroughs which will hopefully allow for the development of new and novel products that can't be produced today.

12:30PM - 1:30PM: "Environmental Listeria Control Strategies: Seek, Detect, & Destroy"

Brent LaPointe, Roka Bioscience

2015 was a record year for Listeria recalls and not in the usual suspect commodities. Understanding your manufacturing environment and associated risk is a critical piece in developing an effective control and mitigation strategy. This presentation will provide an overview of key components and simple changes that you can make today to lower the risk state when it comes to environmental Listeria.

11:30AM - 12:30PM: "Clean Label Solutions using Meat Proteins"

Eva Krieger, PhD,
National Account Manager Eastern NA
Essentia Protein Solutions

What if you could deliver protein fortification in a convenient refreshing strawberry beverage to your health conscious customers without the challenges that lactose presents? How about being able to create a delicious drinkable broth that delivers all the bone broth benefits without having to include HVP/AYE or I&G? Can you imagine a delicious, savory, meaty Au Jus with the flavor only coming from ingredients labeled as beef? As the pressure to remove phosphate in meat applications continues to increase would it be helpful to have an alternative for your whole muscle chicken, ham and roast beef that actually helps increase yield?

I look forward to sharing how USDA, all natural, NAE and Organic meat proteins can assist in your ingredient simplification efforts while still delighting your customers.

STUDENT SESSION

3:00PM: "Food Science Careers, What's Out There?"

Moira McGrath
President, OPUS International, Inc.
Executive Search in the Food Science Industry

Moira McGrath will be speaking about careers in food science industry; what's out there, and how to find the right position for you. She will give advice on what to do and what not to do in the job search process.
